Set Recipe - Millionaires' Shortbread

This recipe will make about 24 bars. Only 4 bars need to be exhibited.

For the shortbread
250g plain flour
75g caster sugar
175g softened butter

For the caramel
100g butter
100g light muscovado sugar
2 x 397g tins of condensed milk

For the topping
200g milk chocolate

1. Heat the oven to 180C/fan 160C/gas 4.
2. Butter a tin 33 x 23cm.
3. In a bowl rub butter, flour and caster sugar until the mixture resembles fine breadcrumbs.
4. Knead the mixture to form a dough. Press the dough into the tin. Prick with a fork and bake for about 20 minutes until firm to the touch and lightly browned.
5. Leave the shortbread to cool in the tin.
6. Make the caramel. In a pan heat gently the butter, sugar and condensed milk until the sugar has dissolved. Bring to the boil, stirring all the time. Take care not to burn the mixture. Reduce the heat and simmer very gently for 5 minutes or until the mixture has thickened. Keep stirring! Poor the caramel over the shortbread and leave to cool.
7. Break the chocolate into pieces and put them in a heatproof bowl over a pan of lightly simmering water or in a microwave. Stir occasionally, making sure the chocolate doesn't burn. Poor over the cold caramel and leave to set. Cut into bars.
